Recycling

The Township does not have a specific company that all residents must use for recycling. Residents may choose the private company of their choice for their recycling needs*.

*The small green recycling bins are being phased out and new residents should use a "cart/toter." The carts allow the collection to be automated which is safer and more productive; but also give residents more capacity for recycling materials. Residents can call Seneca Landfill's main office customer service to request a recycling cart/toter at 724-625-9000.

Sewer Authority

[Western Butler County Authority \(WBCA\)](#)

724-452-5501

WBCA services certain areas of the Township. Contact WBCA for service information. For non-serviced areas of on-lot systems, you must come into the Township Office and complete the Application for On-Lot Sewage Disposal System Permit and pay all applicable fees. Please refer to the on-line Site Evaluation/Application to obtain helpful information on determining an

appropriate site for your septic system. Septic System questions and detailed information can be directed to the Sewage Enforcement Officer (SEO), Doug Duncan at 724-679-4860.
